

Congress Program (preliminary)

June 14 th , 2017 - Accessible Environment		June 15 th , 2017 - Orthopaedic Technician Day		June 16 th , 2017 - Rehabilitation Professionals Day					
Conference Room of the Forum Hall	Conference Room of the "South Hall"	Open Forum	Demo Zone	Conference Room of the Forum Hall	Open Forum	Conference Room "Under The Cupola"	Conference Room of the Forum Hall	Open Forum	Demo Zone
		Presentations & Show		Presentations & Show					
				Russian Premieres: CYBATHLETICS (Organizer: Motorika, Supported by the Russian Ministry of Industry and Trade as well as the Skolkovo Foundation) 1) 1st applied research conference CYBATHLETICS: Key trends in development of assistive technologies and government support of AT-developers (10.00-14.00, Conference Room "Furshetny", Hall 8) 2) Team competitions CYBATHLETICS with live streaming (14.00-18.00, Demo Zone of Forum Hall) Competition: 1. All-Russian competition for orthopaedic technicians (Organizer: MosPROP of the Ministry of Labour and Social Protection)					
10.00-10.30	Symposium New technologies for rehabilitation of children with nervous system disorders and locomotorium diseases			3rd applied research conference "Accessible Cities for visually impaired residents - development challenges"	10.00-10.20 Exhibitor Workshop Forearm prosthetics using HTV silicone rubber OOO Scologic (Russia)	Symposium Medical rehabilitation of orthopedic and trauma patients in Russia		Orthopaedic shoe and orthopaedic insoles technology. Modern production technologies and medical assignment Ortomoda, Moscow	
10.30-11.00	1. Stagerwise rehabilitation approach of pediatric patients with severe injuries 2. Correction of scoliotic spinal deformities in pediatric patients with LSZ (LAKA-SAMPIEV-ZAGORODNIY) system 3. Interaction system of virtual reality "Nirvana" for rehabilitation of pediatric patients - lessons learned				10.20-10.40 Exhibitor Workshop A generation ahead - new silicone liner Softskinair Uniprox (Germany) 10.40 - 11.00 Exhibitor Workshop Multisport knee Easyride Proteor (France)	1. Medical rehabilitation of orthopedic and trauma patients in Russia 2. Medical treatment of elderly polytrauma			
11.00-11.30	4. Modern technologies in rehabilitation of pediatric patients with scoliotic spinal deformities				Exhibitor Workshop Mechanical knee - reinvented Legworks (USA)	patients - special aspects	Round table Key features of fitting patients with prostheses and rehabilitation at United Hospitals		Presentation of various active user wheelchair types: new features, control options, obstacle negotiation
11.30-12.00	5. Partial weight-bearing devices for rehabilitation of children with neurological disorders 6. Physio- and kinesiotherapy techniques for rehabilitation of children with upper and lower limb injuries 7. Early kinetic rehabilitation of pediatric patients with spinal cord injuries	11.45-12.00 Exhibitor Workshop Microprocessor-Controlled Prosthetic Knee Pile 3.0 and Microprocessor Freedom Kinex ankle Antares and Freedom Innovation (USA)			11.30-11.50 Exhibitor Workshop Trustep History College Park Industries (USA)	3. Experiences made in the second phase of rehabilitation Municipal clinical hospital № 67 of Moscow Health Department 4. Modern principles of integrated rehabilitation of patients after spine surgery	(with the participation of representatives of factories, hospitals, Moscow Government, Central Institute of Traumatology and Orthopaedics (CITO))	Organizer: OTTO BOCK	
12.00-12.30	8. Artificial correction of pathological movement patterns in case of cerebral palsy 9. Orthopedic trauma: from early rehabilitation to better life quality 10. Functional status assessment of children and teenagers with neurological disorders	12.00-12.15 Exhibitor Workshop 4-Bar Hydraulic Microprocessor knee ALLUX Antares and Nabtesco (Japan)			11.50-12.10 Exhibitor Workshop Short transfemoral VeryGoodKnee 12.10-12.30 Exhibitor Workshop Vacuum Ankle and Featured Knees for Everyone Ken Dal (Taiwan)	5. Using assistive robotic exoskeletons in rehabilitation therapy 6. Purposes and possibilities of occupational rehabilitation			
12.30-13.00	11. Early rehabilitation of pediatric patients with spinal cord injuries 12. Infantile cerebral paralysis - Challenges and solutions	12.15-12.45 Talk on the subject of "Projects of social-oriented companies focussed on services for disabled people"			Exhibitor Workshop Microprocessor-Controlled Prosthetic Knee Pile 3.0 and Microprocessor Freedom Kinex ankle 4-Bar Hydraulic Microprocessor knee ALLUX Antares, Freedom Innovation (USA) and Nabesco (Japan)	9. Topical issues of rehabilitation of patients after endoprosthetics of lower limb. Technical support programs 10. Rehabilitation of patients after elbow joint replacement - review			Presentation of the exoskeleton Re Walk METIZ
13.00-13.30	Round table From modernization of psychiatry to society oriented psychiatry Organizer: Russian Psychiatric Association	12.50-13.20 Talk on the subject of "Russian State Social University - development strategies of inclusive education"				11. Diagnosis of dysfunction, adaption of assistive technology equipment, diagnostic methods and requirements (Otto Bock, MPRDP) 12. Perfecting information systems for Medical and Social assessment and rehabilitation of patients (MSE)	Symposium: "Rehabilitation Technologies" Applied Research Centre for Rehabilitation, Restorative and Sports Medicine of Moscow Health Department 1. Medical rehabilitation in Moscow 2. Rehabilitation of patients with spinal cord injury	Exhibitor Workshop medil	Start-up Modern robotics for rehabilitation of patients with spinal cord injuries
13.30-14.00	Round Table Accessible Environment for All Organizer: All-Russian society of disabled people	Russian Premieres METIZ Upper limb prosthetic components New materials of COP SAS		GERMAN DAY Organizer: German Association of Orthopaedic Technology (BIV-OT)	Exhibitor Workshop Allard		3. From stage verticalization to robot assisted walking therapy of patients with spinal cord injuries	Moderated course: Active kinesitherapy for patients with muscle function deficit in case of dynamic orthotics and partial weight-bearing Ogonek Research and Production Center	Para-Karate Performances
14.00-14.30		Orto-Kosmos Presentation: Using sports prosthesis for children, benefits of using Demonstration of prosthesis and parents' impressions	Moderated presentation: Amputee Walking School Organizer: Otto Bock		Russian Premieres OTTO BOCK Three-stage method for plaster casting the transfemoral residual limb	Symposium Diabetes Seminar of Russian branch of international diabetes society e.g. treatment of patients with diabetic foot Organizer: MSE	4. Polymodal stimulation of lower limb for patients with spinal cord injuries - case study 5. Magnetic stimulation in rehabilitation of patients with spinal disorders 6. New possibilities of Quality of Life Assessment	Russian exoskeleton - first-use experience in rehabilitation of patients after stroke	
14.30-15.00	Round Table Experts and representatives of NGO's of disabled people - challenges in the developing networks Organizer: All-Russian society for the Blind	Exhibitor Workshop Bionic and microprocessor-controlled prostheses METIZ Using prosthetic hand i-limb™ quantum by Touch Bionics		(with participation of the Federal academy of orthopaedic technology Dortmund (BUFA), German Association of Orthopaedic Technology (BIV-OT), OTTO BOCK, MSE)		1. Patients with diabetic foot. The role of an orthoptist in multidisciplinary team. 2. Multidisciplinary treatment of Charcot including rehabilitation 3. Reconstructive surgery of diabetic foot	7. Rehabilitation of patients with postmastectomic lymphedema 8. Rehabilitation of patients with rheumatic diseases	Exhibitor Workshop Atypical orthotic treatment of upper limbs in case of aggressive lesion of feet and ankles OOO Orto-Med, Chelyabinsk	
15.00-15.30		Exhibitor Workshop OOO Bionic Natali Neural network-based bionic prostheses Bi-On EMG Bracelet Bi-On EMG	15.15-16.00 Wheelchair basketball		Moderated course: Amputee Walking School Organizer: Otto Bock	4. Patients with diabetic foot - multidisciplinary case management		Exhibitor Workshop Microprocessor-Controlled Prosthetic Knee Pile 3.0 and Microprocessor Freedom Kinex ankle 4-Bar Hydraulic Microprocessor knee ALLUX Antares, Freedom Innovation (USA) and Nabesco (Japan)	
15.30-16.00	Talk on the subject of "Purposes and possibilities of occupational rehabilitation" Vocational Training Center for People with Disabilities, Leipzig	Exhibitor Workshop Rehabilitation of woman after mastectomy Products of the company AMOENA		Course with scientific preface: Treatment of patients with scoliosis Corset manufacturing for patients with scoliosis 1. Using plaster modelling technology - Chêneau corset - CITO					
16.00-16.30	Round Table and discussion with the audience: Development of education system for orthopaedic technicians in Russia and possibilities of international cooperation		16.15-17.00 Wheelchair dance		Workshop Talks Fitting patients with prostheses - presentations of case studies 16.00-16.20 Talk on the subject of				
16.30-17.00	(with participation of the Federal academy of orthopaedic technology Dortmund (BUFA), German Association of Orthopaedic Technology (BIV-OT), OTTO BOCK, Albrecht Institute, MosPROP, MAI)			OOO Orto-Med, Chelyabinsk 4. Orthopedic corseting of patients with scoliosis - static and dynamic concepts. Which concept is more effective?	"Orthotic and prosthetic fitting for patients with locomotorium diseases - Best practices, possibilities and results" OOO Ortopediya, Krasnodar				
17.00-17.30				Voyno-Yassenetsky Children's Medical Centre, Moscow					
17.30-18.00									

Already announced brands for Exhibitor Workshops and/or Open Forum/Demo Zone (selection):

Blatchford, CPI (College Park Industries), Freedom Innovations (USA), Ken Dal, Metiz, Motorika, Nabtesco Corp. (Japan), OrtoMobility, Ortokosmos, Össur, Otto Bock, Proteor, Rodin4D, Steeper, Streifeneder, Uniprox...

Register your company for Exhibitor Workshops, Open Forum/Demo Zone and "Russian Premieres" now (free of charge)!
